Mechanical Engineering Tech

Zanimanje/Profession:
Lead Design Engineer
Multimatic Inc.

Poštovane džematlije, Esselamu Alejkum,

Ja sam uključen u bosansku zajednicu otkako sam došao u Kanadu, a član sam dzematskog odbora već 8 godina. Učestvovao sam u raznim aktivnostima i programima u našem džematu od kada sam postao član. U svojim srednjim dvadesetim bio sam dio grupe ljudi koji su izgradili biblioteku bosanske zajednice. Osim toga, bio sam uključen u renoviranju džamije, oraganizovanju dječijih bajramskih zabava, kao i mnogih drugih programa i događaja. Moje poznavanje naše zajednice i iskustva unutar nje su me uvjerali da je došlo vrijeme da se mnogo više fokusiramo na našu sljedeću generaciju.

Kao roditelj, želim imati mjesto gdje bi se moja djeca mogla okupljati sa drugom bosanskom omladinom. Želim uvesti mlade, uključiti ih u naš džemat kako bi jednog dana preuzeli i osigurali da bosanska zajednica nastavi da napreduje i raste. Nadam se da ću biti član odbora koji je motiviran da učini isto. Budućnost naše zajednice ovisi o našoj djeci i vjerujem da je vrijeme da svoje napore usmjerimo na sljedeću generaciju. Međutim, također vjerujem da kao zajednica moramo bolje voditi računa o starijima, te se nadam da ćemo uz pomoć odbora razviti programe podrške i zblizavanja starije generacije.

I have been involved with the Bosnian Community since I first came to Canada, and I have been a board member for 8 years. I participated in various activities and programs in our dzemat from the time I became a member. In my mid 20's I was part of a group of people who built the Bosnian community library. Additionally, I was involved in dzamija renovations, kids bajram parties, as well as many other programs and events. My knowledge of the community and the experience within it, leads me believe that we need to focus much more on our next generation.

As a parent, I want to have a place where my teenage children can congregate with other Bosnian youth. I want to bring the youth in, get them involved in our dzemat so that one day they can take over and ensure that the Bosinan community continues to thrive and grow. I am hoping to be a member of a board that is motivated to do the same. The future of our community depends on our children, and I believe it's time to focus our effort on the next generation. However, I also believe that as a community we have to take better care of our elders, and I hope, with the help of the board, to develop programs to support and bring together the older generation.

Hvala/Thank you Mahsuz Selam!
